PROFESSIONAL SUMMARY

B.Tech CSE (AI & ML) student at VIT Bhopal (graduating Sept 2027) with hands-on experience building GenAI, RAG, and full-stack applications. Actively seeking an immediate internship or campus-trainee role in AI/ML or cloud-native development.

EDUCATION

VIT Bhopal University

Sept 2023 – Sept 2027

B.Tech CSE (AI & ML Specialisation) | CGPA: 8.04 / 10

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL

AI / ML & GenAI: Machine Learning, Deep Learning, NLP, Generative AI, RAG, Prompt Engineering, Computer Vision, AI Ethics & Bias Mitigation

Frameworks & Libraries: LangChain, HuggingFace Transformers, OpenAI API, OpenCV, YOLOv8

Cloud, DevOps & Web: Hugging Face Spaces, Firebase, Flask, React.js, Node.js, Docker, Git, Async REST APIs

EXPERIENCE

Supernal Ventures Pvt. Ltd. | Hybrid Python Developer Intern

May 2026 – July 2026

Tech Stack: Python, Pandas, NumPy, Data Pipelines

- Developed a background scoring engine for an automated crypto trading system to evaluate market pairs weekly.
- Engineered data pipelines using Python and Pandas to compute momentum and volume indicators (ADX, MACD, OBV) for asset filtering.
- Preprocessed and validated extensive market datasets using Pandas and NumPy to ensure system reliability.

PROJECTS

Marg-Darshak — AI Navigation Device for the Visually Impaired

Feb 2025

Python · YOLOv8 · OpenCV · Flask · Raspberry Pi | Health-Hack 2025, VIT Bhopal × Johns Hopkins — **5th / 236 Teams**

- Streamed live video from Raspberry Pi to a Flask + YOLOv8 server for real-time hazard detection (cars, stairs, potholes) with distance estimation at 15 FPS.
- Multi-threaded TTS voice alerts with concurrent thread management kept the video feed stable; microservice design enabled independent component testing.

Smart Document Assistant — RAG-Powered PDF Chatbot

Sept 2025

Python · LangChain · ChromaDB · Gemini API · Gradio · Hugging Face Spaces | [Live Demo](#)

- Built a RAG pipeline (PDF extraction → HuggingFace embeddings → ChromaDB retrieval → Gemini API) grounding answers in source docs to cut hallucinations; supports PDFs up to 10 MB (approx. 200 pages).
- Added AI safety guardrails (input validation, response filtering) and bias mitigation; deployed to Hugging Face Spaces, handling 100+ daily queries.

ShareBite — Surplus Food Redistribution Platform

Apr 2026

React.js · Node.js/Express · Firebase · Gemini 3.5 API · Cloudinary | [Live Demo](#)

- Developed a React.js & Firebase web app managing real-time donation feeds with Role-Based Access Control.
- Architected a Node.js/Express AI microservice using the Gemini 3.5 API to automatically extract food metadata from user uploads, streamlining data entry.
- Optimized performance by integrating Cloudinary for image processing, LocationIQ for geocoding, and DB transactions to prevent concurrent claim errors.

CERTIFICATIONS & ACHIEVEMENTS

- 5th Place (Silver Medal) — Health-Hack 2025, VIT Bhopal × Johns Hopkins University | Top 5 of 236 teams, 150+ universities
- [Microsoft Certified: Azure AI Apps and Agents Developer Associate \(AI-103\)](#)
- [Oracle Cloud Infrastructure 2025 Certified Generative AI Professional](#)
- [IBM AI Developer Professional Certificate](#)
- [Microsoft Certified: Azure Data Fundamentals \(DP-900\)](#)
